20<sup>th</sup> April 2014

Dear All,

The Cornea Society of India was formed in December 2013 with the aim of getting together all cornea specialists in the country onto one platform.

There were and are ongoing talks about a merger with the ISCKRS, though this is a laborious and time consuming process due to the legalities involved.

It has therefore been decided that till such time that an official merger takes place, these two societies will function independently and membership will have to be obtained for each Society or both as per the individual's decision in order to hold membership status for either or both the Societies as of now.

Any earlier miscommunication regarding the same from either of the Societies is regretted.

From  
The Office Bearers, CSI
